1. Dear candidates, I am a Capricorn lady and I do not carry my feelings in front of me like in a belly-shop. At our first meeting you fell completely in love with me!

Where would you take me to warm my heart and win me over?

2. Love candidates, my heart for animals is well known. Now it happens from time to time in my life that one or the other person reminds me of a species or genus from the animal kingdom.

3. I inherited embroidered pink fine rib underwear with elephants on it from my great-grandmother.

4. Travelling around the world is far from my mind, instead I like to stay at home. I travel in my imagination and discover new things like never before. Dearest, you are connected to me, which Phantasialand will you explore with me?

5. My favourite sport is horse riding. What is your favourite sport and how would you convince me?
