.....
.....

24. On Halloween you get lost in the forest at night. Suddenly you see a sign that says: "At the following crossroads, one path leads to ruin, one leads you safely out of the forest. The crossing is guarded by two ghosts, one of which always lies, one of which always tells the truth. You can ask only one ghost a single question." With which question you find the right way?

.....
.....

25. Dr. Van Helsing is traveling in Transylvania and is called to a family with two daughters, one of whom is a vampire. Vampires can be recognized by the fact that they always lie, whereas humans always tell the truth. At the same time, in the country, there is an opposite plague that causes people to always say the opposite of what they would actually say. Carmilla, the older daughter says to Van Helsing: "Dr., we both have the opposite plague!", then Justine, the younger daughter interrupts her: "No, not true at all." Van Helsing thinks for a moment and then knows which of the two is the vampiress. You too?
